

**Probably The Most Profitable Racing System Ever!!
You Can Make £Thousands Per Year Tax Free!!
Complete With A Very Lucrative Optional Business Opportunity!!**

Do you have an interest in horse racing, if so I have an ideal means of putting money in your pocket. Since 1st January 2009 I have been monitoring four racing systems, a lot of time has been spent on devising these systems and after the initial process they have all been found to fare reasonably well on their own, but when combined they are in a different league. Please allow me introduce you to the COMBO 4 Horse Racing System which is comprised of four individual systems based on intrinsic values, i.e. ability, form, class, and stamina. Each of these systems incorporate one or more of these essential factors, which means they probably hold more reliable pointers for securing winning bets than from betting on such as random selections, newspaper tips, favourites, or even your own particular fancies. COMBO 4 is not cheap, but the system really does represent excellent value for money, ultimately, you pay for what you get, a damn good racing system. If you was using any one system over a long period you'd no doubt suffer many losing runs which can be very frustrating, every racing system has them, it's sod's law I suppose, but changing the format somewhat and operating four individual racing systems in conjunction is a much sounder proposition, in fact it would be quite rare for all the systems to suffer the same eventual fate at the same time. Even COMBO 4 will experience the inevitable losing run, no system is infallible, but I hasten to add losing runs here are minimal.

The cost of the package is £65.00, for this you will be provided with a first rate horse racing system geared up to make regular profit week after week. A complete list of selections and corresponding results will be provided along with current statistics and profit levels marked up accordingly against the values of the stakes applied. You will be advised too on different aspects of Level Stake betting with advice too on applying certain stake plans to the system. You will see from the result sheets how I commenced with just a £100 bank and built up the funds to its current tremendously high level in such a short time. Once purchased, if you find the system to be unprofitable and can provide me with proof that COMBO 4 failed to make profit whilst applying Level Stakes over a period of four weeks from the date of receipt I will refund your payment in full... GUARANTEED! If you wish to market COMBO 4 you will be paid a commission fee of £30.00 for every sale you make. I will supply you with all the promotional materials you'll need, and for each reply that's made quoting your personal code a sales letter and reply envelope will be posted out bearing your name, address and reference number. If the sale goes ahead the recipient will be asked to make a payment of £65.00 to you directly, you should then deduct your commission of £30.00 and send me the difference of £35.00 along with the new customer's address slip I will then complete the order on your behalf. As a good-will gesture and incentive to promote and market COMBO 4 and on condition that you purchase it from the start you will be allowed keep the £65.00 payment on your first sale.

Please make Chq/P.O for £65.00 payable to: **Robert Best** (*Cash payments should be sent via **Registered Post***)
Send the completed slip with your payment to the Corresponding Agent whose address is listed below.
